DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-2, drawn to a process for the derivatization of shaped articles.

Group II, claim(s) 3-4, drawn to an apparatus having a reactor, pumps, heat exchangers, and a control device.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the process of Group I (claims 1-2) lacks steps that set forth the use of more than one heat exchanger and pumps, which are special technical features of the apparatus of Group II (claims 3-4). Furthermore, the apparatus of Group II lacks a polymerization stage, optional pre-reactions, and polymer-analogous reactions, as well as the "equilibration" and "switching off" process steps a) and d), respectively, which are special technical features of Group I. As a result of the lack of the same or corresponding special technical features, no single inventive concept exist. Therefore, restriction is appropriate.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
